To get the best possible results from some properties it is often necessary to make two or more visits to a property. Second visits will only be charged for on occasions where you or your client's instructions make a second visit a necessity.

WEEKENDS AND PUBLIC HOLIDAYS

You like us to be available at weekends and public Holidays just in case the sun shines. To make this possible I have to have at least one photographer on standby every weekend. This does not come cheap. The Saturday rate is £13.50 per hour and the Sunday rate is £17.50 per hour. This hourly rate will be charged extra on all work we are requested to do at weekends and public holidays.

TURNAROUND TIMES

We endeavour to post or deliver both the discs and transparencies within 24 hours of our visit to a property. During the silly season this can go up to 36 hours. We are always happy for you to collect work if it is an emergency.

INTRODUCTION

Look very carefully, we have changed the price, introduced new technology and speeded up the turnaround time but we have not and will not drop our standards as far as quality is concerned. We are very happy to discuss discounts on our prices for offices that use us on a regular basis.

With the introduction of Digital Cameras, photography of houses for sale has changed enormously over the past two years and not always for the best in terms of quality. We have kept an eye on these trends and have changed to keep up with them. We have introduced the best available digital cameras but we continue to offer both medium and large format film photography for those who want the best available quality.

With 3 full time photographers, the highest quality film and digital cameras, our own film and digital processing labs, a mobile high lift platform, easy access to helicopters and dedicated web pages for Estate Agents we are ideally suited to help you.
